PRODUCTS/SERVICES

<b>Batteries</b> (Refer page 34)																	
<b>Battery Back-up Supplies</b>																	
Switch Tripping																	
<b>Battery Chargers</b> (Refer page 34)																	
<b>DC Power Supplies</b>																	
< 1kW																	
1kW - 50kW																	
50kW - 200kW																	
DC / DC Converters																	
Inverters																	
Rectifiers																	
Services																	
<b>Frequency Converters</b>																	
60Hz Power Supplies																	
400HZ Power Supplies																	
28V DC Aircraft Ground																	
<b>Harmonic Control</b>																	
Active Harmonic Conditioners																	
HVDC																	
SVC Harmonics Filters																	
<b>Harmonic Test Sets</b>																	
<b>Inverters</b>																	
Grid Interactive																	
Off Grid																	
<b>Power Conditioning</b>																	
Filters																	
Lightning Arresters																	
Line Conditioning																	
Power Conditioners																	
Single phase 300VA – 150kVA																	
Three phase 2kVA – 5000kVA																	
Surge Diverters																	
Surge Suppressors																	
<b>Power Factor Correction</b>																	
Services																	
<b>Power Factor Test Sets</b>																	
<b>Switching Transient Suppressors</b>																	
<b>Uninterruptible Power Supplies</b>																	
UPS Systems																	
Hire Equipment																	
Line Interactive																	
Modified Sinewave Output																	
True Sinewave Output																	
On-Line Double Conversion																	
Modular Upgradable																	
Parallel Systems																	
Rack / Tower																	
Connectivity Products																	
AS400																	
Modbus																	
SNMP																	
Rotary (Batteryless)																	
Stand-By																	
Power Management Software																	
Macintosh																	
PC																	
Services																	
24/7 Emergency Support																	
Installation																	
Commissioning																	
Preventative Maintenance Contracts																	
<b>Switches</b>																	
External Wrap Around Maintenance Bypass																	
Source Transfer																	
Static Bypass																	
Static Transfer																	
<b>Total Harmonic Management</b>																	
<b>Voltage Optimisation</b>
